4:15 Final Adjournment.

WILL ADDRESS STATE EDITORS.

W. C. Van Cleve Speaks at St. Joseph

Next Week on "Co-operation."

W. C. Van Cleve, editor of the Democrat-Forum is scheduled to deliver an address Friday, September 17, on "Co-operation Among Ourselves," at the annual meeting of the Missouri Press association in St. Joseph Thursday and Friday, September 16 and 17. Mr. Van Cleve was originally slated for an address on "Cooperation with the Merchants in Community Building," but was later "switched."

About 300 newspaper men and women of Missouri are expected to attend the meeting in St. Joseph next week.

Representative Charles Hyslop of this city, was yesterday re-elected to the office of moderator of the Northwest Missouri Baptist Association, which opened yesterday morning in a three days session at the First Baptist church. J. F. Gore of Rock Port, who has been secretary and clerk for the past year was also re-elected for the coming year.

The principal feature of today's session will be the address at eight o'clock tonight by Dr. C. B. Miller, pastor of the Central Baptist church at Kansas City. Dr. Miller will take for his subject, "The Laymen's Movement." He is one of the most widely known men in the Baptist denomination and his lecture will be of interest.

55 Churches Represented.

The meeting is the annual district convention for thirty five churches in Northwest Missouri.

Outside of the election of officers, the business of the day yesterday was the hearing of reports from the various churches and their auxiliaries and the formal business of the convention.

The sessions were presided over by Charles Hyslop, moderator and about 150 delegates are in attendance.

At the close of the business meeting, Mrs. W. M. Westbrook sang "No Night There," by special request.

The introductory sermon was given by the Rev. J. C. Midyett, pastor of High Creek church one of the rural churches of Atchison county.

Mr. Midyett took for his subject, "I Speak of Christ and His Church," giving one of the finest sermons ever delivered before the convention. He subdivided his topic into three divisions "What, Why and How a Church."

He was followed by the Rev. T. L. West, of Carrollton, state secretary of the state mission board, who made a splendid talk on "The Great Commission."

Dr. J. W. Lowe, a returned mission worker from Chefoo, China, assisted by his son, Paul, a student at William Jewell college, gave an illustrated lecture last night upon Dr. Lowe's work in that country in which he has spent the past sixteen years.

Petrograd, Sept. 8.—The Czar has transferred the Grand Duke Nicholas to the command of the army in the Caucasus, while the Czar will direct all military operations. The Grand Duke also becomes viceroy of Caucasus by the change, supplanting Count Daskoff.

Numerous changes are expected in the general staff. The announcement that the Czar has taken command has produced a more optimistic spirit among the Russians. The Russian emperor says he has taken command with unshaken assurance of final victory, and that he will defend the country to the last.

Special to The Democrat-Forum.

Amsterdam, Sept. 8.—The German submarine which sank the Arabic, recently, causing the loss of two American lives off the south coast of Ireland, has made official report to the Berlin admiralty, according to reports received here from Berlin.

The report says that when the Arabic changed her course to approach other vessels, lying nearby, the submarine commander thought it was trying to ram her, therefore ordered the Arabic sunk or captured, are denied.

Washington, Sept. 8.—The report of the submarine commander relative to the sinking of the Arabic, will throw a different light on the controversy resulting from the sinking, if statement is true. It will relieve Germany of responsibility, if actions indicated the Arabic tried to ram the German submarine.

G. M. CAMPBELL, 77, DEAD.

Was Veteran of Civil War.—Had Resided in Nodaway 33 Years.

Gilbert M. Campbell, 77 years old, died at six o'clock yesterday afternoon at the family home, his death following an illness of several months.

Mr. Campbell was born in Ohio county, Ind., October 30, 1838, and was the son of Alexander Campbell. He was reared on the farm and received his education in the public schools. He was living in Indiana when the civil war was in progress and on February 26, 1862, he enlisted in Company B, 52nd regiment of Indiana volunteers. He fought at Shiloh and Nashville and was in the third brigade, second division at Port Pillow. He remained in continuous service until 1865. At the close of the war he remained in Indiana until 1872 when he came to Missouri and purchased land in Atchison township.

On December 25, 1867, Mr. Campbell was married in Iriquois county, Ill., to Miss Amy Detmars, who with three children survive. The children are Maud, the wife of Elmer Derickson of Taylor county; Mary B. the wife of A. W. Reese of Oakley, Idaho, and Ina, at home. Two children died in infancy.

No arrangements have yet been made for the funeral services. Mr. Campbell was a member of Nodaway lodge, No. 479, A. F. and A. M.

FAIR WEATHER FOR 5 DAYS.

Government Forecasters Predict Clear Skies and Moderate Temperature for Week.

Special to The Democrat-Forum.

Washington, Sept. 8.—Weather predictions for the week beginning today issued by the weather bureau for the middle west are:

Fair weather and moderate temperature until September 11 or 12, when local showers are probable, followed by fair weather the last two days of the week.

Mrs. Jones Improving.

Mrs. J. B. Jones, who is at the St. Francis hospital, recuperating from an operation of a few days ago is improving. Her sister, Miss Sallie Payne of Pierre, N. D., is in Maryville, called here by her sister's illness.

REVELLE TO SUCCEED BROWN?

Appointment of Missouri Insurance Commissioner in Jurist's Place, Believed Certain.

Special to The Democrat-Forum.

St. Louis, Sept. 8.—Charles G. Revelle, state superintendent of insurance, will be appointed on the supreme bench of Missouri by Governor Major to succeed the late Justice J. C. Brown. It is stated authoritatively but unofficially here yesterday. Governor Major, Revelle and a score of other state officials were here yesterday to attend the funeral of Justice Brown, but neither would comment on the reports of Mr. Revelle's probable appointment which was openly discussed by other high state officers.

From the same source came the prediction that Walter K. Chorn of Fayette, Mo., who is chief assistant to Superintendent Revelle, will succeed the latter as insurance commissioner. Revelle, if appointed, will be one of the youngest supreme judges of the United States, as he is only thirty-seven years old.

Russia Prays 3 Days For Victory.

Special to The Democrat-Forum.

Petrograd, Sept. 8.—Three days of fasting and praying for victory began today throughout all the Russias. No musical instrument may be played nor any entertainment of whatever nature given. Work, including the all important labor in munition factories will continue as usual.

The Holy Synod of the Russian church selected today as the beginning of this fast because it is the anniversary of the liberation from the Mongols. In 1295 the great Tatarian, conqueror of almost all Asia, led his fierce and barbarous hordes almost to the gates of Moscow and was turned back September 8, in a sanguinary conflict. The memories of the horrors of Tatarian's incursion persist among the Russian people to this day.

Second Plattsburg Camp On.

Special to The Democrat-Forum.

Plattsburg, N. Y., Sept. 8.—The second training camp for business and professional men who would like to prepare to help to defend their country started here today and will continue until October 7.

Captain Dorey, commander of the camp, and other United States Army officers were enthusiastic today in discussing the fall crop of "rookies." The captain believes they will make as wonderful progress in their month of hard work here as did the first camp just ended.

Most of the recruits arrived here on a special train from New York City. As at the first camp, they must pay for their equipment and also for their board, which is about 50 cents a day.

Good high grade upland prairie hay, Wabash track, \$11.00 per ton. Wm. Everhart. 6-9

Go-On Land Viewing Trip.

Hugh Strong left this morning for Trinity Valley in eastern Texas with a number of men of Maryville and vicinity, bent on inspecting land in that region, with a view to investing. This is the second trip Mr. Strong has taken within the last month.

Miss Lyle to Porto Rico.

Miss Floy Lyle, who has been spending the summer in Maryville with her parents, Mr. and Mrs. Robert Lyle, has departed for Naguabo, Porto Rico, where she takes up her second year work in the government schools.

To Live at Fayette.

Mr. and Mrs. Frank Mathes and baby left today for Fayette, Mo., where they will make their home in the future.

Is Home on a Visit.

Lenna Perrin returned from Des Moines, Ia., this morning for a visit with his mother here.

Danger Signals of Tuberculosis

In a previous article, it was stated that nearly everybody has tuberculosis at some time or other during his lifetime. Autopsies on people have shown that hardly a single human being reaches mature life without a scar on his lungs or elsewhere showing where tuberculosis had attacked him, and he, by his normal resistance and vitality, had warded off the continuation of the attack.

Because tuberculosis is so widespread, every man, woman and child should give the most careful attention to those signs of the disease which point out danger. The treacherous disease germs may enter the body in early childhood and may not cause any serious trouble for ten or fifteen years. Then, all of a sudden, when the body is weakened by overwork, worry, sickness, or bad living and working conditions, these sleeping germs wake up and become active in the destruction of the lungs or other organs. The working man or woman, therefore, cannot be too careful in the safeguarding of health and in watching out for those symptoms which indicate that the disease of tuberculosis is actually present. What, then, are some of the danger signals and what should be done about them?

(1) First of all, there is a cough that hangs on and will not clear up. If it lasts for a month or longer, it is a red light, a danger signal, which you cannot afford to ignore. It may start with wet feet or some other insignificant circumstance, but no matter how the cough started, if it does not go away, see your doctor at once. Colds frequently weaken the bodily tone and resistance, so that it is easy for the lurking germs to get a foothold.

(2) Loss of weight, accompanied by a loss of appetite, and a certain amount of "stomach trouble" is another danger signal, which you must not pass unheeded. Sometimes loss of weight may come from some other cause than tuberculosis, but it pays to be on your guard. You may not have a cough, and you may experience very little trouble except a sort of chronic weariness. You ought to know what your normal weight should be. If you begin to lose five, ten or more pounds without any apparent reason look for sound medical advice at once. Sometimes with loss of weight goes a loss of appetite, and trouble with bowels and stomach, even running to diarrhea. Whether you are losing much weight or not, look out for this danger signal. It is a warning that something is wrong.

(3) Then there is that run-down, all-the-time-tired feeling. Most people have days when they feel unusually tired, for some reason or other. Such an occasional period of "spring fever" or "lazy liver" may not be at all dangerous, but when every day for two or three weeks you hate to get up and dread to do anything but lie around and be lazy, there is danger ahead. This is Nature's warning to you that some enemy inside your body is sapping your vitality. Don't ignore the warning signal!

(4) Anyone of the three symptoms just mentioned may occur singly or all of them may come at one time. When, to any or all, there is added a fever in the late afternoon or during the night, accompanied possibly by sweats, beware of this danger signal. It is a bright red flag which Nature waves before you, cautioning you to give immediate heed. Anyone's temperature may rise at times, some people's more easily than others. But when for a week every afternoon about four or five o'clock you're felt feverish, or when night after night you wake up in a dripping sweat, you may rest assured that there is nothing normal about that. Go to your doctor at once and tell him about it. You may have no cough and no other sign of disease, and this may be the only warning you'll get. Give heed to it at once.

(5) If you have a cough and in spitting you find streaks of blood in your sputum, you may rest assured that something is wrong. It may not be a direct sign of tuberculosis, but whatever it is, you should attend to it at once. You cannot afford to waste time putting it off. Nature may give you that more emphatic warning of the presence of tuberculosis, a hemorrhage of the lungs. If so, don't be scared unduly. It is a danger signal, and if you heed it, you may be safe.

There are other danger signals, some which you can see and some which only a trained physician can detect. Your safety lies in getting medical attention as early as possible. Tuberculosis can be cured if it is discovered in time. The time to discover it is when the first symptoms show themselves. Don't take chances with Death. You'll lose every time.

Go to a good doctor, if you notice any of these danger signals, and insist that he examine you stripped to the waist. If you can't afford a doctor, go to a free clinic and be examined. It may cost a few dollars to be examined, but it may save you hundreds of dollars, untold suffering, and possibly your life and that of your wife and family.

"SAFETY FIRST" is a motto that applies to tuberculosis, especially when it is first showing itself.

[NOTE—This is the Fourth of a Series of Five Articles Prepared by The National Association for the Study and Prevention of Tuberculosis, New York City.]

OUR PUBLIC FORUM

VII.—Hon. Elihu Root

On Woman's Sphere

The question of Woman Suffrage is an issue before the American people. Twelve states have adopted it, four more states vote upon it this fall and it is strongly urged that it become a platform demand of the national political parties. It is therefore the privilege and the duty of every voter to study carefully this subject. Hon. Elihu Root, in discussing this question before the Constitutional Convention of New York, recently said in part:

"I am opposed to the granting of suffrage to women, because I believe that it would be a loss to women, to all women and to every woman; and because I believe it would be an injury to the State, and to every man and every woman in the State. It would be useless to argue this if the right of suffrage were a natural right. If it were a natural right, then women should have it though the heavens fall. But if there be any one thing settled in the long discussion of this subject, it is that suffrage is not a natural right, but is simply a means of government, and the sole question to be discussed is whether government by the suffrage of men and women will be better government than by the suffrage of men alone.

Into my judgment, sir, there enters no element of the inferiority of woman. It is not that woman is inferior to man, but it is that woman is different from man; that in the distribution of powers, of capacities, of qualities, our Maker has created man adapted to the performance of certain functions in the economy of nature and society, and woman adapted to the performance of other functions.

Woman rules today by the sweet and noble influences of her character. Put woman into the arena of conflict and she abandons these great weapons which control the world, and she takes into her hands, feeble and nerveless for strife, weapons with which she is unfamiliar and which she is unable to wield. Woman in strife becomes hard, harsh, unlovable, repulsive; as far removed from that gentle creature to whom we all owe allegiance and to whom we confess submission, as the heaven is removed from the earth.

The whole science of government is the science of protecting life and liberty and the pursuit of happiness. In the divine distribution of powers, the duty and the right of protection rests with the male. It is so throughout nature. It is so with men, and I, for one, will never consent to part with the divine right of protecting my wife, my daughter, the women whom I love, and the women whom I respect, exercising the birthright of man, and place that high duty in the weak and nerveless hands of those designed by God to be protected rather than to engage in the stern warfare of government. In my judgment, this whole movement arises from a false conception of the duty and of the right of both men and women.

The time will never come when the line of demarcation between the functions of the two sexes will be broken down. I believe it to be false philosophy; I believe that it is an attempt to turn backward upon the line of social development, and that if the step ever be taken, we go centuries backward on the march towards a higher, a nobler and a purer civilization, which must be found not in the confusion, but in the higher differentiation of the sexes."

SUFFRAGISTS' BIG FIGHT FOR BALLOT

Washing on Demonstration to Follow One a Fair

CONGRESS IS BEING POLLED

At Least 5,000 Suffragists, Men and Women, to Gather in National Capital For December Meeting—Woman Suffrage Workers Plan Busy Campaign in Their Native States.

Washington.—This month the women voters of the United States planned to meet at the Panama-Pacific exposition in San Francisco and go on record as favoring the Susan B. Anthony amendment to remove from the ballot the qualification of sex.

Three months later, during the first week of December, the members of the Congressional union and their supporters will rally in Washington and make a great demonstration before congress.

More than 3,000 women will take part in the San Francisco convention.

Missouri farmers have suffered a five million dollar decrease in the 1915 wheat yield, according to careful crop reports and estimates made by W. L. Nelson, assistant secretary of the Missouri State Board of Agriculture. Other authorities estimate the loss at twice this amount, but all agree that immediate steps must be taken to prevent an even greater loss next year.

A Hessian fly extermination campaign should now be pushed vigorously for the purpose of saving next year's wheat crop from the ravages of the pest. The fly should be attacked in the old wheat stubble and the volunteer wheat should be buried deeply beneath the soil by plowing and harrowing.

Every county in the state, infested with the Hessian fly, should be organized for a complete destruction of the pest. Every farm bureau, farmers' union, grange, anti-horse thief association, and local organization, as well as all county officers and township officers, should lend their support and work for the movement to make it effective. The field work to be done in this co-operative campaign has been outlined by the College of Agriculture as follows:

Plow wheat stubble just as deeply as possible and harrow thoroughly. This will bury the insects in the dormant flaxseed stage and cover them with such a fine surface mulch that few of them will escape.

Destroy all volunteer wheat in order that the flies which do escape may be starved to death before the regular fall sown crop is available. The flies deposit their eggs in the grooves of the leaves of the wheat plant, but rarely use any other small grain in this way. Volunteer wheat left undestroyed may be as dangerous to other wheat as a case of smallpox, not properly quarantined, is to the remainder of the community.

Do not sow until the flies are dead. Delay as long as possible, without danger of reducing the yield, by preventing the wheat from being well established in the soil before winter. This lengthens the period during which

the flies are being starved. The safe date in northern Missouri is October 1, in the central part of the state October 8, and in the southern third October 16. Sow as far as possible from fields which have been in wheat in 1915, in order that it may be as difficult as possible for flies to reach the new field.

Use oats or rye for fall pasture, instead of wheat. The oats will not feed the fly and enable it to live until the fall sown wheat is available and the fly attacks rye very slightly.

Good seed, fertile soil and a properly prepared seed bed aid in securing a strong, vigorous, healthy plant which will be better able to resist the attacks of the Hessian fly.

Every farmer in the community must adopt these measures, if the best results are to be secured. One man who sows early and allows volunteer wheat to remain undestroyed, may establish an infestation from which enough flies will spread by wing and wind, to destroy all his neighbors' wheat crops within half a mile. When they have destroyed his early sown wheat, they will seek that which was sown later, and is still green and fresh.

Most of these control measures should be a part of all good Missouri wheat raising, even if the Hessian fly did not make them more desirable. They add little or nothing to the expense of growing the crop but greatly increase the yield.

The failure of farmers to co-operate and the unusually warm October weather in 1914 made the eradication of the fly especially difficult last fall. Only once was the freezing point reached before November 14, so the fly had the same opportunity to work in November which it ordinarily has during October, and the effectiveness of the measures taken was greatly reduced.

Belckow 15, Graham 5.

Belckow defeated Graham Sunday in a well played baseball game, 15 to 5. The feature of the game was the hitting of the Belckow team and the work of the Belckow battery, Dougan, pitching for Belckow, struck out seventeen men. Batteries—Graham, Anderson Noblet and Noblet; Belckow, Dougan and Messick.

At this convention New York will be strongly represented. Mrs. O. H. P. Belmont, chairman of the women voters' convention, is expected to be present. Mrs. Belmont is deeply interested in the plan for the Congressional Union to organize the women voters of the west in support of the federal suffrage amendment.

"It is this part of the policy of the Congressional Union," said Mrs. Belmont, "which has my heartiest support."

Mrs. Belmont has already devoted much time to overseeing the details of the convention. She has been assisted by a committee consisting of Mrs. William Kent of California, Mrs. S. B. M. Young of Montana, Dr. Cora Smith King of Washington, Mrs. George Fowler of Colorado, Mrs. Charlotte A. Whitney of California, Mrs. Preston Satterwhite of New York, Mrs. M. H. DeYoung of California, Miss Margaret Roberts of Idaho, Mrs. Frederick C. Sanborn of California, Mrs. Lucius Culbert of Colorado, Mrs. Phoebe A. Hearst of California, Mrs. Mary Cachot Therkelson of Oregon, Miss Florence Kelley of New York and Mrs. Lovell White of California.

DEFER CLEARMONT TOURNEY

Maitland, Pickering, Hopkins and the Home Team Clash in Six-Game Contest for \$350.

The six-game baseball tournament to have begun at Clearmont this afternoon with the teams of Hopkins, Pickering, Maitland and Clearmont contesting for the pick of the four prizes aggregating \$350, has been postponed on account of rain. The prizes are: First, \$125; second, \$100; third, \$75; fourth, \$50.

Richardson and Willey, battery for the Maryville Federals contracted with the management of the Pickering team last night to play with that team during the tournament.

Burlington Junction and Clarinda, Ia., were previously scheduled to engage in the contest but they withdrew to the Maitland and Pickering teams.

One of the four teams which is striving hard to come out on top or nearly on top in the tournament, is the Pickering nine. Besides having Willey and Richardson of the local team, the Pickering team will also contain the four Carmichaels, consisting of Charles, D., Marvin and Rube; Richard and Dennis Collins, Howard Leach and Harvey Sadler and Fellings, an "imported" third baseman.

The Maitland team will contain "Swede" Bundy as pitcher; Caywood, catcher; Lewis, Phillips, E. Bundy, Walker, Pruitt, Roberts and F. Lewis as homeguards besides several "imports." The Clearmont and Hopkins teams will line up nearly the same as in the tournament here and the one at Hopkins.

Returns to Hopkins.

Miss Edna Robb of Hopkins, who has been spending a few days visiting Mrs. E. B. Sheldon, left today for her home. Miss Robb leaves soon for Jacksonville, Ill., where she will attend college.

SHAVED BY SWISS ON BORDER

Austrian Soldiers Operated on Through Barbed Wire Fences.

Innsbruck, Austria, Sept. 7.—The Swiss-Austrian frontier is carefully marked off and closed by barbed wire fences, but that does not prevent fairly free intercourse between the Swiss and the Austrian soldiers.

Soldiers of both countries are grouped along the Engadine border and in the Swiss ranks is a barber, the only one of his profession on either side. A recent visitor to this front who desired to have a shave found it was obtainable by the simple expedient of sitting in a chair on the Austrian side and allowing the Swiss soldier to extend his arms through the wire meshes.

The shave was not the equal of one in a regular barber shop, a bit ragged and rough in spots, but it was better than none and was accomplished without any breach of neutrality. Austrian officers, it is asserted, resort almost daily to the odd expedient.

STOLE HIDE FROM COW.

Thief Took Advantage of Auto's Collision With the Animal.

Baraboo, Wis.—Recently a cow belonging to Mr. and Mrs. Isaac Cohn was struck by an automobile owned by Edward Kowalski of North Freedom. The cow was tethered in the road for a pasture, and the driver of the car claims he tried to avert an accident, but could not.

The leg of the cow was broken, and the animal had to be killed. Action was begun in Justice Adolph Andros' court on the ground the machine was being driven too fast, and later a change of venue was taken to Justice H. L. Halsted's court, where the case was dismissed, as the car was not going twenty-five miles an hour. Besides, cows should not pasture in the highway.

The hide was removed from the animal, and later the sheriff was notified that this had been stolen. The thief has not been apprehended.

TO SAFEGUARD

\$5,000,000,000

Destruction of Records by Big Chicago Fire Recalled.

New York.—If fire should destroy the hall of records the city would lose its files of deeds and mortgages, upon which rest the title of Manhattan's \$5,000,000,000 of realty.

Register Hopper recommended in presenting his budget estimates for 1916 to the board of estimate that the duplicate abstract records which he has completed be housed in a fireproof building away from the city. The original plant would be retained in the office for title searching purposes. This method of duplicate plants in separate localities is followed by the large title and insurance companies, but the city has neglected to protect its records.

On record in the register's office are 1,039,915 deeds and over 1,000,000 mortgages. The books or files number over 8,000.

The destruction of fire of the Equitable building and of the contents of a part of the capitol at Albany proved that merely depositing records in a fireproof building does not safeguard against partial or total destruction by fire. The great fire in Chicago destroyed the original records, but the damage was mitigated to a degree by the fact that abstracts made by a private company were saved. It placed owners largely at the mercy of the title company, which took huge profits from selling the abstract information. Fire and earthquake at San Francisco and fire at Jacksonville, Fla., illustrated further the great loss resulting from a destruction of title records.

"The establishment of the Torrens system," says the register, "in the way it has been successfully and universally applied in Australia and many other countries, would do away completely with the need of preserving old records except for their historical interest."

TO HONOR DANIEL BOONE.

D. A. R. Will Unveil Bowlder Next Month.

Montgomery City, Mo.—After nearly 100 years a monument is to be erected over the burial place of Daniel Boone, near Marthasville, Warren county, through the efforts of the Daughters of the American Revolution. It is to be made of a large red granite bowlder found in Warren county, which Boone selected as his last resting place. It is planned to dedicate the marker Oct. 29 at the close of a conference of the Missouri Daughters which is to be held in St. Louis.

Student a Hero.

Franklin, Ind.—Oscar Bogard of Lyons, who is attending the summer course at Franklin college, has become a hero in the opinion of his friends in rescuing a horse from death under a train. The horse broke loose from a hitchrack in front of the college campus and ran along the railroad tracks. The buggy was demolished and the horse became entangled in the harness and fell on the tracks. A train was approaching at full speed when Bogard with almost superhuman strength dragged the horse from the tracks only a second before the engine whizzed by.

SOCIETY and CLUBLAND

By KATE SCHENCK
PHONES—OFFICE 42 HOME 683

Society Begins Work.

The Woman's Missionary Society of the First Baptist church introduced for this year a change of meeting place, making all gatherings to be held at the church instead of at the homes of the members. This was done because of its large membership and the central position of the church being a matter of greater convenience. The organization begins this fall its twenty-eighth year's work. The meetings are held on the first Friday of each month, each alternate session being a tea given in connection with the regular program. The various phases of foreign and home missions are the subjects studied with the exception of the February meeting at which the life and works of Fanny Crosby, the song writer is the topic. The annual business meeting and luncheon, which includes the year's work, will be held on the church lawn on August 4, next. The officers are Mrs. Alexander Fraser, president; Mrs. W. A. Burris, Mrs. Clark Andrews and Mrs. L. P. Janes, first, second and third vice presidents; Mrs. W. M. Westbrook, secretary; Mrs. G. W. Hempstead, treasurer; Mrs. William Everhart, collector; Mrs. Lewis M. Hale, pianist; Mrs. H. L. Raines, chorister; Mrs. Omer Catterson, librarian, and Mrs. W. A. Bailey, flower committee.

Gibbons-Evalson.

I. W. Evalson of St. Joseph and Mrs. Sadie A. Gibbons of Independence, Kan., were married yesterday afternoon at the home of Mrs. A. O. Spickerman. Mr. and Mrs. Evalson left on the afternoon Burlington train yesterday for St. Joseph where they will make their home.

Wilson Dinner Party.

Mr. and Mrs. John Wilson of Graham, were the hosts of a dinner party given Sunday noon at their home at which they entertained Mr. and Mrs. R. B. Gex, Mr. and Mrs. Robert Gex and Mr. and Mrs. William Montjoy and sons, all living near Graham, Mr. and Mrs. L. G. Crossan and daughter, Lora May, of this city and Mr. and Mrs. Halbert Catterson and children, Miriam, Halbert, Jr., and Lewis Edward, living north of Maryville.

Entertainers Bridge Club.

Miss Clara Sturm entertained the members of the Tuesday Afternoon auction bridge club yesterday with a bridge luncheon at the Sturm home on South Main street. Mrs. B. M. Chandler was a complimentary guest of the club. The prize for the high score was won by Mrs. D. J. Thomas. The guests were Mrs. M. L. Beattie, Mrs. George B. Baker, Mrs. Will Wallis, Jr., Mrs. Fayette Bellows, Mrs. Ralph Ever, Mrs. D. J. Thomas, Mrs. E. M. Chandler and Miss May Orear.

Lawrence Keeler Host.

Lawrence Keeler entertained a crowd of friends Monday night with a movie party at the Empire theatre followed by a luncheon at the Keeler home on South Main street. The gathering was a farewell one before the departure of Mr. Keeler for St. Mary's Kan., where Mr. Keeler enters his junior year at St. Mary's college. Those in the party were Miss Mary Lewis, Miss Mary Sewell, Miss Vella Booth, Miss Brownie Helpley, Miss Vjune Colden, Joe Farmer, Martin Lewis, Jr., Verne Pickens, Ernest Moore and Mr. Keeler.

HOLDS RELIGIOUS CAMPAIGN.

Mike Monday Conducts Independent Revival This Week.—Crowd Increases.

Mike Monday, "liberal evangelist," holding a revival at the Star theatre, announced last night that he is now ready for business in Maryville. He has stretched across the front of the building a twenty-two foot sign and has filled the lobby with placards. He has also secured the services of an orchestra, consisting of a violin, cornet and piano. The attendance last night increased slightly. He will speak tonight on the subject, "Heathen I Have Met." He spoke last night on "Sauerkraut and Marshmallows."

Carefully Treat Children's Colds

Neglect of children's colds often lays the foundation of serious lung trouble. On the other hand, it is harmful to continually dose delicate little stomachs with internal medicines or to keep the children always indoors.

Plenty of fresh air in the bedroom and a good application of Vick's "Vap-O-Rub" Salve over the throat and chest at the first sign of trouble, will keep the little chaps free from colds without injuring their digestions. 25c, 50c, or \$1.00.

MRS. J. E. MELVIN WINS PRIZE.

Gets First on Butter at County Fair.—Mrs. William Doffing, Second

In giving the domestic science awards at the county fair last week the prizes for the best dairy butter were omitted from the list.

The first prize for the best pound of butter was won by Mrs. J. E. Melvin of West Lincoln street and the second by Mrs. William Doffing of East First. Twelve entries were made in this department.

NODAWAY BONDS BY 19 VOTES.

County Court Finds Majority, Smaller Than Some Reported.—Advertise for Bids.

The Nodaway township voters gave the \$35,000 road bond proposition a majority of nineteen votes August 24, instead of a 57 majority as other newspapers over Nodaway county reported, according to an official canvass made by the county court today.

The county court has arranged to advertise for bids for the sale of the bonds as soon as possible, so that the money can be secured by the township board in time to do some improvement work this year.

HOME COMING DATE CHANGED.

Fall Festival of Monroe Township Will Be Held in October.

The Skidmore Home Coming Day, which had been set for September 17, has been postponed until the early part of October.

Definite arrangements for the event have not yet been made but it is planned to have a general harvest home festival for Monroe township and a number of attractions will be secured.

County Farm Has Big Apples.

Two large apples of unknown variety, grown on the county farm, west of Maryville, were submitted to the county court today as proof of the care taken of the county orchard there under W. L. Job superintendent. One measures thirteen and one-half inches in circumference while the other is just a foot around.

To Teach at Ottawa.

Miss Neva Airy will leave tomorrow for Ottawa, Kansas, where she teaches this year in the primary department of the public schools. Miss Airy will go by the way of Kansas City and stop there for a short visit with Mr. and Mrs. Frank Flynn.

RAINED INCH IN SHORT TIME.

Precipitation At Noon Today Fell in Torrents.—Flooded Streets and Walks.

A rain which fell almost in a torrent at noon today, flooded the streets and sidewalks for a short time this afternoon, quickly caused a rise in smaller streams and resulted in the abolition of automobile traffic on the country roads for today.

The rain really began early this morning, when a slight rain fell at 4 o'clock, but the skies cleared until about 11 o'clock this morning when a real rain began, coming hardest about 12:30 o'clock. The precipitation at 1:30 o'clock this afternoon was 1.03 inches, according to J. R. Brink, local weather recorder.

MERCHANT BANKRUPT.

Harry W. McClain, Hardware Dealer, Lists Assets at \$1,500 Less Than Debts.

Harry W. McClain, a hardware merchant at Clearmont, filed a voluntary petition in bankruptcy in the federal court at St. Joseph yesterday. His debts are listed at \$5,000 and assets at \$3,500.

Lester-Lindsay Shows to 'Come.

The Lester-Lindsay Theater Company is scheduled to arrive in Maryville next Monday for a week's engagement here. The show grounds will be on East Third street, near Vine. This show firm is fairly well known in Maryville.

Miss Corwin Home.

Miss May Corwin returned Monday night from a visit of several weeks at Loveland and Estes Park, Colo. Miss Corwin will leave soon for New York City, where she will attend school this coming year.

Market Livestock.

Collins Brothers of Pickering, and William Howden of Skidmore, marketed livestock in St. Joseph yesterday.

Goes to Business College.

Forrest Gooden, son of Mr. and Mrs. Cooper Gooden, will attend the Gem City Business college at Quincy, Ill., beginning this week, instead of a business school at Grand Island, Nebr., as was at first planned.

Mrs. C. A. Bone Returns.

Mrs. C. A. Bone returned last night from a visit of several weeks at Montezuma and Des Moines, Ia.

NEW PASTOR HERE FRIDAY.

The Rev. W. M. Case Will Preach First Sermon at Presbyterian Church Next Sunday.

The Rev. William Moll Case, the newly chosen pastor of the First Presbyterian church, will arrive in the city Friday noon from Caldwell, Idaho, and Sunday will conduct his first church service.

Mr. Case preached his farewell sermon at the Idaho church last Sunday and the occasion was made a union service of all the churches in the city.

Mrs. Case will accompany her husband to Maryville and after a few days stay here will go to Iowa to visit relatives before taking up a permanent residence here.

INJURED CHILD AT HOSPITAL.

Daughter of Mr. and Mrs. Roy Martin Undergoes Operation This Morning.

Katherine Martin, the young daughter of Mr. and Mrs. Roy Martin, was taken to St. Francis hospital yesterday and this morning she underwent an operation for an affection of her ankle.

While playing several weeks ago the little girl sprained her ankle and the injury resulted in blood poisoning. Her case has been quite serious for the past two weeks.

Are Roofing Wabash Depot.

The Wabash freight house is being re-roofed this week with a new process roofing.

Daughter at Brown Home.

Mr. and Mrs. Walter C. Brown, living six miles south of the city, announce the birth of their daughter this morning.

Guess Work Is DANGEROUS In Fitting Glasses

The old way of fitting glasses by guessing at the kind needed was often more harmful than going without them. NO GUESS WORK NOW. I submit the test, the correction, and the cost to you before you are asked to pay a single cent. You take no risk nor incur any obligation by coming to me about your eyes.

FEDERALS TO PLAY CRESTON

Mar: file Team, Slightly Changed, to
Give 2 Exhibition Games at
Lenox This Week.

The Maryville Federal team was to leave today for Lenox, Ia., where the team was to meet Creston for a game this afternoon and another tomorrow. In exhibition games at the Lenox picnic and home coming. The Federals will be captained during this trip by George Palfreyman. Rain, however, has caused a postponement of the games.

The team will be composed of the following men, according to announcement made last night by Captain Palfreyman: Fussy and Wakeman, pitchers; Summa of Stanberry, catcher; Tilson, 1b; Scott, 2b; Palfreyman, ss; Walker, Stanberry, 3b; Morse, rf; Besinger of Stanberry, cf.

Wiley and Richardson were scheduled to go as battery for Maryville but on account of the Clearmont tournament, in which they will engage, a substitute pitcher and catcher were secured. Fussy comes from the St. Joseph Western League team.

TRAIN VICTIM RECOVERS.

Jesse Smith, Arkeo, Recovers.—Save
Right Leg But Amputate Other.

Jesse Smith of Arkeo, who had his left leg cut off by a Burlington train August 30, is recovering slowly at St. Francis hospital here, where he was taken after the accident. He is now able to sit up.

His left leg had to be amputated where nearly severed, but the physicians believe they can save the right member.

ROBINSON PAINTINGS SHOWN.

Are Shown at San Francisco Exposition.—Artist Known Here.

One of the largest displays of the work of American artists made at the Panama-Pacific exposition, is that of the paintings of Theodore Robinson, a brother of the late H. E. Robinson of Maryville.

The work of the artist who died a number of years ago in Europe, which was his home in his later years, is judged to be among the finest of American painters and the exhibit includes many of his best. It is hung by a New York salon for display during the exposition.

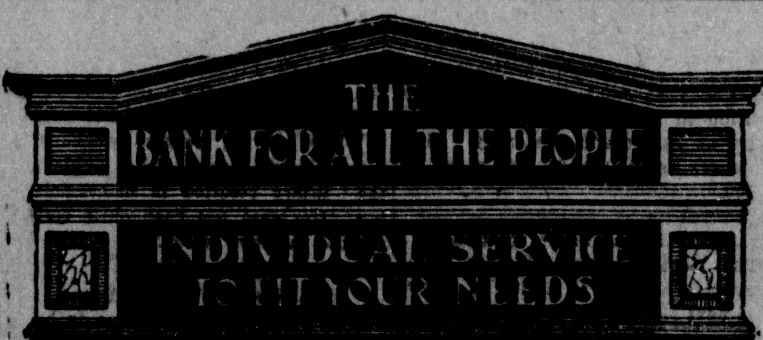

The artist visited in Maryville a number of times during his brother's life time and was known to many in the city.

A number of his paintings were in the H. E. Robinson home, gifts from the artist to his brother and family.

SAFETY COURTESY SERVICE

BOOSTERS WON 8-2

MAITLAND SUFFERS SECOND DEFEAT AT HANDS OF MARYVILLE.

END SEASON NEXT WEEK

Local Baseball Team May Play Pickering Tuesday as Finale.—Yes, yesterday's Contest Slow and Poor.

The Maryville Boosters defeated the Maitland baseball team by the score of 8 to 2 at the Normal grounds yesterday afternoon for the second time this season. The game was witnessed by a small and lifeless crowd, while the game was loosely and slowly played by both teams.

The Boosters are scheduled to play one more game this season, making thirteen games in all. The final contest will probably be with the Pickering team there next Tuesday, according to Walter Wray, manager.

The Maitland team came with the intention yesterday of getting revenge for the 5 to 1 defeat administered to it several months ago by the Boosters. The fact is the Maitland bunch had won eleven out of the last dozen games it had played.

The visitors earned neither score they got, while the Boosters should have had several more. The game was umpired by Ernest Scott.

Two double plays were secured by the Boosters, one in the seventh inning when Tilson pegged to Palfreyman for a put out at second, and Palfreyman returned the ball to first to throw out "Swede" Bundy. The other was in the next inning when Palfreyman threw to Scott to secure a put out at second and Scott threw to Tilson to throw out Lewis there.

Wakeman "fanned" ten Maitland batters to eight struck out by Bundy. Bundy was wild though and walked four men, besides allowing local players several base advances on wild pitches.

The Boosters lined up as follows: Finch, 3b; Palfreyman, ss; Moore, rf; Richardson, cf; Mayes and W. Adams, cf; Scott, 2b; Tilson, 1b; Wray, lf; Wakeman, p.

The Maitland team lined up as follows: Caywood, c; Lewis, ss; Phillips 1b; Bundy, cf; Walker, 3b; Pruitt, rf; Roberts, 2b; F. Lewis, lf; Swede Bundy, p.

The score: R. H. E.
Maitland...0 0 0 1 0 0 1—2 10 5
Boosters...2 0 0 1 2 0 12—8 14 7

LECTURER FAILS TO ARRIVE.

Demonstration of Miss Bab Bell at Pickering Will Probably be Held Later.

Miss Bab Bell of the home economics department of the Missouri State University, who was to give a demonstration before the conference of women's clubs at Pickering today and tomorrow failed to reach there today for the meeting.

No word has been received this afternoon from Miss Bell, but it is probable that the meeting can be arranged at a later time.

ATTENDS W. C. T. U. MEET.

Mrs. R. L. Finch Represents Local Union at Convention at Burlington Junction.

Mrs. Robert Lyle Finch left this morning for Burlington Junction where she represents the local Women's Christian Temperance Union at a district meeting held at the United Presbyterian church of Burlington Junction today.

Delegates from all the unions in the county and a number of other workers attended the meeting. The principal address was given this afternoon by Mrs. Lizzie O. Middleton of Kansas City, an officer of the state organization.

Mrs. Middleton also will speak tonight.

HOLT MAY PAY FOR BRIDGE.

Will Not Use the \$480 for Bridge.—Defer Action on Other Proposition.

The Holt county court will probably pay the \$480, as its share in the erection of a tri-county bridge over the Nodaway river, south of Graham, according to a decision of the county court at Oregon yesterday, after a conference with members of the Nodaway county court, Prosecuting Attorney W. G. Sawyers and John G. Thornhill.

The Holt court first tried to evade the payment direct to the Nodaway county court, with a proposition to instead use the money for building a drainage ditch along the Nodaway river and also that the pro rata population of Holt county did not permit it to pay as high as \$480. The Holt officials yesterday acquiesced relative to the drainage ditch but have yet to decide on the pro rata basis.

The bridge was built last winter under the stipulation that Andrew, Holt and Nodaway counties would pay equally for the improvement.

LIVE STOCK

RAISING HORSES FOR PROFIT

Every Available Sound Mare Should Be Bred to Meet the Demand Caused by European War.

Ever since the first days of bicycles some have thought that the breeding of horses would become unprofitable. Meanwhile the horse has kept its place among domestic animals and we now have more than ever before. With the European war on us and so many horses being killed in battle the near future probably will see a greater demand for horses than at any time in the last century.

It is not advisable to breed a mare having serious defects, but every sound mare available should be bred to a stallion to produce stock to supply the coming demand. Don't think you are economizing to breed to some

Excellent Farm Type.

defective or disreputable stallion rather than pay a little higher price for the service of a good one.

Two years ago a farmer who had two mares of equal value bred one to a low-grade horse, the other to a good one. The colts had the same treatment in every respect. At weaning time he refused \$100 for the better colt and could not find a buyer at \$50 for the other. This demonstrates the benefit of breeding from the best. It takes no more to raise a good animal than a scrub, and the selling price is generally twice as much or more, and a buyer is much easier found.

GOOD MATERIAL FOR GROWTH

Alfalfa, Either in Green State or as Hay, is One of the Best Feeds for the Young Pigs.

The pig which does not grow, but merely gets fat, is likely to die of "thumps." Corn makes fat. The small grains are richer in the things that make the bone and muscle needed if the pig is to grow. Two parts of shorts to one of corn is a growth ration rather than a fat ration.

Skim milk furnishes a good material for growth if fed with a little corn. When the shorts reach the weights of about 75 pounds, the feed may be made of one part of tankage to ten parts of corn, or one of the small grains. Small grains should be ground or crushed.

Alfalfa, either in the green state or as hay, is one of the best feeds for the young pig. It feeds the bones and muscles, but should have corn to render it complete. These ideas have been found correct by the Nebraska station. Those who have not the alfalfa may grow rape as a growth crop. It is equal to alfalfa in materials for bone and muscle.

Pigs Need Protein.

Growing pigs need more protein than they can get from corn and pasture. Skim milk is fine for them and so is meat meal or tankage. In the writer's experience there is no better thing for growing pigs on pasture, that are getting some corn, than a slop made of shorts with a little tankage added. It sure helps a pig to make a hog of himself in quick time.

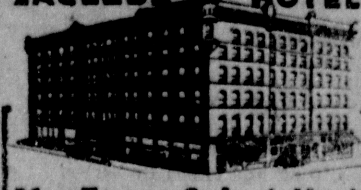

Keep the Colt Sleek.

A few minutes every day with brush and comb would keep the colt sleek. It is when we let this work slip by that we have to turn the little fellow out and leave him to get rid of dust and dirt.

Breed to Pure-Bred Stock.

If everybody insisted that they must breed their mares to pure-bred stock, it would not be long before scrub stallions would be scarcer than hen's teeth.

HORSES NEVER SO MUCH IN DEMAND AS NOW.

Missouri has never in all its history been called on to supply such a quantity of horses as in the past few months. This means that with all the plugs and inferior horses sold for "cannon fodder" that the best is left and that from these there will spring the best breed of horses Missouri has ever seen. At the state fair, September 25 to October 2, there will be shown the best in horses that Missouri affords.

GREAT HARVEST IN RUSSIA.

Wheat Yield is Better Than Five Year Average.

London.—The Daily Mail's correspondent at Petrograd quotes M. Krivosheina, minister of agriculture, as saying that the Russian harvest is not only better than in 1914, but greatly above the average for the five years preceding. The yield is estimated at 2,000,000,000 bushels, of which 571,000,000 bushels are wheat. During the five years preceding 1914 the average wheat yield was 478,000,000 bushels.

The only districts where the harvest was bad were the Vilna and Grodno regions, which are now largely occupied by the Germans. The difficulty of finding enough harvest workers has been overcome and there would be no difficulty in exporting the surplus through the Black sea if the Dardanelles were opened.

The Siberian harvest was below the average, but this fact is negligible when the abundance of the crops in eastern and southern Russia is remembered.

JUST A "DOG'S LIFE."

Kansas City Man Goes into Particulars of Wife's Treatment.

Kansas City, Mo.—"A man is about the same as a dog," James Henson said his wife told him, and he quotes the phrase in his divorce petition. Then, to show he lived a "dog's life" from the time he married his wife, Mrs. Etha Henson, in 1901, he enumerates the following indignities:

She was cross and irritable.
She gossiped about him.
She would make him leave the table before the meal was finished.
She would not mend his clothes.
She objected to washing his shirts.
She grumbled and nagged.
She had a bad disposition.
She ran up bills on him.

AMERICAN DIGS UP EGYPTIAN TEMPLE

One of the Glories of Memphis Is Excavated.

Philadelphia.—The discovery of a great temple at Memphis, Egypt, belonging approximately to the period of Rameses II., is announced by the University museum as a result of the spring and summer explorations of Eckley B. Cox, Jr., of the Egyptian expedition under the leadership of Dr. Fisher, curator of the museum's Egyptian section.

The find is considered of first importance and it is hoped will prove to be the beginning of further developments in the uncovering of the history of Memphis, which was one of the great cities of the world, probably the greatest in the time of Rameses II., more than 3,000 years ago, which is known to have been of great importance 5,000 years ago and probably has a history running thousands of years behind that era.

The temple was sited over with mud from the Nile and covered with mud blown from the desert, so that nothing remained of the glories which were so prominent in the days of Herodotus and which lasted until within a century or two of the Christian era.

The discovery of the great temple to students of history is highly valuable, bearing out the glowing chronicles of the glory of the Egypt by Herodotus. It forms another refutation of recent historians who have accused him of inserting myths in his writings.

When the digging began the capitals of two columns of the great palace were discovered. After a hundred expert diggers had spent three months in careful excavation a great hall of columns was unearthed, and the excavations were then carried down to the original soil.

The temple must originally have been one of the glories of Egypt. In spite of the work of time, of sieges and other destructions, enough survives to show that it was a magnificent place. This temple in all its gorgeousness was described by Herodotus. A large inscription indicates that it may possibly be the temple of Set II., although at first it was supposed to have been erected by Menephtah, son of Rameses II.

SHE HAS "HYPNOTIC EYE."

Lindsay (Cal.) Man Complains Against Wife.

Lindsay, Cal.—Alleging that his wife, Mrs. Mary Perry, has a "hypnotic eye" and that for the past year she has exercised a malign influence over him, Wesley E. Perry, a rancher, swore to a complaint for the arrest of Mrs. Perry and asked that she be detained at the county jail until an examination can be made into her mental condition. Mrs. Perry made a statement to the officers following her arrest, in which she declared her husband is "half insane" and that he, instead, should be locked up and examined by the county alienists.

New Automobile Fuel.

London.—Attention has been called in England to another new motor fuel called "natalite," for which excellent results and low price are claimed. It is said to be composed mostly of alcohol, and the mixture contains a small quantity of alkali for the purpose of neutralizing the acidity of the products of combustion of the alcohol, which otherwise would cause corrosion of the valves and cylinders.

WILL ADDRESS STATE EDITORS.

W. C. Van Cleve Speaks at St. Joseph Next Week on "Co-operation."

W. C. Van Cleve, editor of the Democrat-Forum is scheduled to deliver an address Friday, September 17, on "Co-operation Among Ourselves," at the annual meeting of the Missouri Press association in St. Joseph Thursday and Friday, September 16 and 17. Mr. Van Cleve was originally slated for an address on "Cooperation with the Merchants in Community Building," but was later "switched."

About 300 newspaper men and women of Missouri are expected to attend the meeting in St. Joseph next week.

RUSS MAKE CHANGE

CZAR TRANSFERS GRAND DUKE NICHOLAS TO CAUCASUS.

'WILL FIGHT TO THE LAST'

Russian Emperor Gives Assurance of Final Victory Over Teutons.—Produces Optimism.

Special to The Democrat-Forum.

Petrograd, Sept. 8.—The Czar has transferred the Grand Duke Nicholas to the command of the army in the Caucasus, while the Czar will direct all military operations. The Grand Duke also becomes viceroy of Caucasus by the change, supplanting Count Dashkoff.

Numerous changes are expected in the general staff. The announcement that the Czar has taken command has produced a more optimistic spirit among the Russians. The Russian emperor says he has taken command with unshaken assurance of final victory, and that he will defend the country to the last.

SINK ANOTHER BRIT SHIP

London Reports the Torpedoing of the Ellerman Liner Ducuro by Submarine.—Crew Saved.

Special to The Democrat-Forum.

London, Sept. 8.—The Ellerman liner Ducuro has been sunk by a submarine. The crew was saved.

FLOODS STOP GERMAN MOVES

Berlin Says Slackening of Advance Against Russians Is Due To Heavy Rains.

Special to The Democrat-Forum.

Copenhagen, Sept. 8.—Berlin dispatches attribute the slackening of the German advance in Russia to severe floods.

QUAKES JAR CENTRAL AMERICA

Many Lives Lost.—Towns Destroyed by Earth Shocks.—Tidal Wave Follows.

Special to The Democrat-Forum.

San Juan-del-Sur, Nicaragua, Sept. 8.—Every country in Central America was rocked by a series of earthquakes Monday and yesterday. Many of the shocks were severe.

More than a score of towns were destroyed and it is feared thousands perished. A tidal wave accompanied the earthquake on the west coast of Costa Rica. Three villages were swept into the sea.

SHIPS \$19,500,000 IN GOLD.

England Sends Another Big Load of Specie and Securities.

Special to The Democrat-Forum.

New York, Sept. 8.—J. P. Morgan & Company has announced that the latest gold shipment from England received today amounted to \$19,500,000. No reference is made to the value of the securities of various kinds accompanying the shipment.

TO HEAD BAPTISTS

CHARLES HYSLOP AGAIN MODERATOR NORTHWEST ASSOCIATION.

DR. MILLER TO SPEAK

Prominent Kansas City Pastor Will Talk on Laymen's Movement.

Representative Charles Hyslop of this city, was yesterday re-elected to the office of moderator of the Northwest Missouri Baptist Association, which opened yesterday morning in a three days session at the First Baptist church. J. F. Gore of Rock Port, who has been secretary and clerk for the past year was also re-elected for the coming year.

The principal feature of today's session will be the address at eight o'clock tonight by Dr. C. B. Miller, pastor of the Central Baptist church at Kansas City. Dr. Miller will take for his subject, "The Laymen's Movement." He is one of the most widely known men in the Baptist denomination and his lecture will be of interest.

35 Churches Represented.

The meeting is the annual district convention for thirty five churches in Northwest Missouri.

Outside of the election of officers, the business of the day yesterday was the hearing of reports from the various churches and their auxiliaries and the formal business of the convention.

The sessions were presided over by Charles Hyslop, moderator and about 150 delegates are in attendance.

At the close of the business meeting, Mrs. W. M. Westbrook sang "No Night There," by special request.

The introductory sermon was given by the Rev. J. C. Midyett, pastor of High Creek church one of the rural churches of Atchison county.

Mr. Midyett took for his subject, "I Speak of Christ and His Church," giving one of the finest sermons ever delivered before the convention. He subdivided his topic into three divisions "What, Why and How a Church."

He was followed by the Rev. T. L. West, of Carrollton, state secretary of the state mission board, who made a splendid talk on "The Great Commission."

Dr. J. W. Lowe, a returned mission worker from Chefoo, China, assisted by his son, Paul, a student at William Jewell college, gave an illustrated lecture last night upon Dr. Lowe's work in that country in which he has spent the past sixteen years.

KANSAS FLOOD DROWNS NONE

Southeast Part of State Suffers Much Damage, Though.—Trains Can Move South.

Special to The Democrat-Forum.

Fort Scott, Kans., Sept. 8.—The Marmaton river is down ten feet today and it is expected that communication to the north will be restored this afternoon. Two hundred persons are reported still marooned with food here since Monday.

The homeless were all taken care of last night. The Osage river in the north part of this county is on a rampage. Trains are unable to go south from here today over the Frisco. All trains on other lines are being routed that way, as several miles of track have been washed out on each of the other railroads.

Iola, Kans., Sept. 8.—There apparently was no loss of life in the flood here, as was at first feared. All the missing have been accounted for. A relief headquarters was opened this morning to care for the homeless and hungry, with ex-Congressman Charles Scott in charge. Hundreds of flood victims are being given furniture, clothing and provisions.

FRENCH AIRMEN RAID ENEMY

Aviators Drop Sixty Bombs on Stations in Germany to Cut Communication Lines.

Special to The Democrat-Forum.

Paris, Sept. 8.—It is announced that French aviators have again raided the German lines of communication. They dropped sixty bombs on the railway station at Sedan, from which are carried supplies for the Argonne region.

WILL SETTLE UP FAIR WORK

Fair Association Meets Friday to "Wind Up" Affairs of Last Week's Exhibition.

A meeting of the Maryville Nodaway County Fair and Agricultural association has been called for Friday afternoon in the fair offices to wind up the affairs of the county fair held here last week. At that time the receipts and expenditures to the fair will be discussed.

The association is comprised of A. O. Mason, president; J. F. Roelofson, vice president; C. L. Gann, secretary-treasurer; James A. Ford, manager. Mr. Mason owns virtually all stock in the fair association. It is a \$25,000 corporation.

SHOT TO SAVE SELF

SUBMARINE THOUGHT ARABIC TRIED TO RAM PLUNGER.

WOULD RELIEVE GERMANY

Official Report Will Throw Different Light on Strain With U. S.—Says Vessel Changed Course.

Special to The Democrat-Forum.

Amsterdam, Sept. 8.—The German submarine which sank the Arabic, recently, causing the loss of two American lives off the south coast of Ireland, has made official report to the Berlin admiralty, according to reports received here from Berlin.

The report says that when the Arabic changed her course to approach other vessels, lying nearby, the submarine commander thought it was trying to ram her, therefore ordered the Arabic to be sunk or captured, are denied.

Washington, Sept. 8.—The report of the submarine commander relative to the sinking of the Arabic, will throw a different light on the controversy resulting from the sinking, if statement is true. It will relieve Germany of responsibility, if actions indicated the Arabic tried to ram the German submarine.

British reports that this submarine was sunk or captured, are denied.

PLAN LYCEUM MEET

ARRANGE LECTURE AND MUSICAL ATTRACTIONS TOMORROW.

ALICE NIELSON IS FIRST

Renowned Operatic Star to Appear October 21.—Peace Advocate and Methodist Bishop Next.

The Maryville Lyceum Association will meet in special session at the Commercial Club rooms at 4:30 o'clock tomorrow afternoon to consider plans for the lyceum course of six numbers to be given at the First Methodist church here next fall and winter. The general committee of the association will also meet with the association officers.

The association is composed of W. R. Jackson, president; W. M. Westbrook, vice president; the Rev. R. L. Finch, secretary; Prof. G. H. Colbert, treasurer.

Special to The Democrat-Forum.

Washington, Sept. 8.—President Wilson has assumed control of the situation relative to the action taken by Dr. Constantin Dumba, the Austro-Hungarian ambassador to the United States in stopping Austrian labor in American munition factories.

He visited the Secretary of State's office this morning for the second time since he has been president. President Wilson and Secretary Lansing went over the Austrian and other matters thoroughly.

Dumba took the position that he was justified in all actions he took. It puts this government in a dilemma as to the action it should take, in the controversy.

The representatives are: State Normal school, Prof. G. H. Colbert; public schools, W. M. Westbrook; Maryville Conservatory of Music, P. O. London; City Federation of Women's Clubs, Mrs. W. C. Van Cleve; Daughters of the American Revolution, Mrs. E. G. O'Leary; Parent-Teachers Association, Mrs. S. E. Farmer; P. E. O. Club, Mrs. M. G. Tate; First Christian church, the Rev. R. L. Finch; First Methodist church, the Rev. G. S. Cox; First Baptist church, the Rev. L. M. Hale; First Presbyterian church, the Rev. W. O. Case; Buchanan Street Methodist church, the Rev. R. C. Holliday.

Mrs. Tate and Mr. Case and Mr. Holliday will probably not be present, however.

Alice Nielsen Comes Oct. 21.

The association promises some good numbers next season. It is to be independent of any lyceum circuit again this year. The first number will be one of the biggest of all and will attract visitors from all parts of north-west Missouri.

For Alice Nielsen, pronounced as America's lyric soprano, is scheduled to open the lyceum season here Thursday, October 21. She is associated with the Boston Opera Company and also regularly at the Metropolitan opera house in New York.

This One Number Costs \$600.

The second number will be an address by either Dr. Hamilton Holt, editor of "The Independent" of New York and renowned peace advocate, or Bishop Edwin Holt Hedges, lecturer of renown and bishop of the Methodist Episcopal church. One will appear here in November and the other in December.

Provide Musical Numbers.

The fourth number, a musical one, will appear Saturday, January 15, 1916. It will consist of a trio composed of Signor Alberto Salvi, harpist; Miss Marguerite Austin, violinist and Miss Florence Hedstrum, soprano.

Mrs. Fenetta Sargent Haskell will follow with a number in dramatic readings, unassisted. The final number of the course is scheduled to appear on Thursday night, March 10. It too is a musical trio consisting of Signor Antonio Sala, violinist; Miss Mignonne Meeker, soprano, and Miss Lois Brown, pianist.

United States Government Orders Officers to Command Texans in Mexico Trouble.

Special to The Democrat-Forum.

Brownsville, Texas, Sept. 8.—The most important steps yet taken on the Mexican border has been ordered, giving United States army officers the right to command the sections of civilians in case further firing results from the Mexican side of the border.

WHEAT YIELD 16 1-2 BUSHELS

Agricultural Department Estimates Production Will Be 981 Million. Corn Nearly 3 Billion.

Special to The Democrat-Forum.

Washington, Sept. 8.—The department of agriculture estimates that the wheat yield in the United States this year will amount to 16 1/2 bushels to the acre or a total production of 981,000,000 bushels.

The corn yield will amount to 2,985,000,000 bushels, the department estimates in a report made public this afternoon.

AIRMEN AGAIN IN BRIT RAID

Zeppelins Start Fires and Kill 10 and Injure 43 on English Coast.—Make No Gain.

Special to The Democrat-Forum.

London, Sept. 8.—It is announced that ten were killed and forty-three injured in the Zeppelin raids along the east English coast last night.

London, Sept. 8.—Official details are withheld but it is known that the Zeppelin raid on the east coast of England last night was a failure from a military standpoint. Fires were started and some killed by bombs dropped by the German airships, but no gain was made otherwise, or which would benefit the enemy.

REVELLE TO SUCCEED BROWN?

Appointment of Missouri Insurance Commissioner in Jurist's Place, Believed Certain.

Special to The Democrat-Forum.

St. Louis, Sept. 8.—Charles G. Revelle, state superintendent of insurance, will be appointed on the supreme bench of Missouri by Governor Major to succeed the late Justice J. C. Brown, it is stated authoritatively but unofficially here yesterday. Governor Major, Revelle and a score of other state officials were here yesterday to attend the funeral of Justice Brown, but neither would comment on the reports of Mr. Revelle's probable appointment which was openly discussed by other high state officials.

From the same source came the prediction that Walter K. Chorn of Fayette, Mo., who is chief assistant to Superintendent Revelle, will succeed the latter as insurance commissioner. Revelle, if appointed, will be one of the youngest supreme judges of the United States, as he is only thirty-seven years old.

Russia Prays 3 Days For Victory.

Special to The Democrat-Forum.

Petrograd, Sept. 8.—Three days of fasting and praying for victory began today throughout all the Russias. No musical instrument may be played nor any entertainment of whatever nature given. Work, including the all important labor in munition factories will continue as usual.

The Holy Synod of the Russian church selected today as the beginning of this fast because it is the anniversary of the liberation from the Mongols. In 1395 the great Tamerlane, conqueror of almost all Asia, led his fierce and barbarous hordes almost to the gates of Moscow and was turned back September 8, in a sanguinary conflict. The memories of the horrors of Tamerlane's incursion persist among the Russian people to this day.

Second Plattsburg Camp On.

Special to The Democrat-Forum.

Plattsburg, N. Y., Sept. 8.—The second training camp for business and professional men who would like to prepare to help to defend their country started here today and will continue until October 7.

Captain Dorcy, commander of the camp, and other United States Army officers were enthusiastic today in discussing the fall crop of "rookies." The captain believes they will make as wonderful progress in their month of hard work here as did the first camp just ended.

Most of the recruits arrived here on a special train from New York City. As at the first camp, they must pay for their equipment and also for their board, which is about 50 cents a day.

Mr. and Mrs. Frank Mathes and baby left today for Fayette, Mo., where they will make their home in the future.

Is Home on a Visit.

Lonna Perrin returned from Des Moines, Ia, this morning for a visit with his mother here.

Danger Signals of Tuberculosis

IN a previous article, it was stated that nearly everybody has tuberculosis at some time or other during his lifetime. Autopsies on people have shown that hardly a single human being reaches mature life without a scar on his lungs or elsewhere showing where tuberculosis had attacked him, and he, by his normal resistance and vitality, had warded off the continuation of the attack.

Because tuberculosis is so widespread, every man, woman and child should give the most careful attention to those signs of the disease which point off danger. The treacherous disease germs may enter the body in early childhood and may not cause any serious trouble for ten or fifteen years. Then, all of a sudden, when the body is weakened by overwork, worry, sickness, or bad living and working conditions, these sleeping germs wake up and become active in the destruction of the lungs or other organs. The working man or woman, therefore, cannot be too careful in the safeguarding of health and in watching out for those symptoms which indicate that the disease of tuberculosis is actually present. What, then, are some of the danger signals and what should be done about them?

(1) First of all, there is a cough that hangs on and will not clear up. If it lasts for a month or longer, it is a red light, a danger signal, which you cannot afford to ignore. It may start with wet feet or some other insignificant circumstance, but no matter how the cough started, if it does not go away, see your doctor at once. Colds frequently weaken the bodily tone and resistance, so that it is easy for the lurking germs to get a foothold.

(2) Loss of weight, accompanied by a loss of appetite, and a certain amount of "stomach trouble" is another danger signal, which you must not pass unheeded. Sometimes loss of weight may come from some other cause than tuberculosis, but it pays to be on your guard. You may not have a cough, and you may experience very little trouble except a sort of chronic weariness. You ought to know what your normal weight should be. If you begin to lose five, ten or more pounds without any apparent reason look for sound medical advice at once. Sometimes with loss of weight goes a loss of appetite, and trouble with bowels and stomach, even running to diarrhea. Whether you are losing much weight or not, look out for this danger signal. It is a warning that something is wrong.

(3) Then there is that run-down, all-the-time-tired feeling. Most people have days when they feel unusually tired, for some reason or other. Such an occasional period of "spring fever" or "lazy liver" may not be at all dangerous, but when every day for two or three weeks you hate to get up and dread to do anything but lie around and be lazy, there is danger ahead. This is Nature's warning to you that some enemy inside your body is sapping your vitality. Don't ignore the warning signal!

(4) Anyone of the three symptoms just mentioned may occur singly or all of them may come at one time. When, to any or all, there is added a fever in the late afternoon or during the night, accompanied possibly by sweats, beware of this danger signal. It is a bright red flag which Nature waves before you, cautioning you to give immediate heed. Anyone's temperature may rise at times, some people's more easily than others. But when for a week every afternoon about four or five o'clock you've felt feverish, or when night after night you wake up in a dripping sweat, you may rest assured that there is nothing normal about that. Go to your doctor at once and tell him about it. You may have no cough and no other sign of disease, and this may be the only warning you'll get. Give heed to it at once.

(5) If you have a cough and in spitting you find streaks of blood in your sputum, you may rest assured that something is wrong. It may not be a direct sign of tuberculosis, but whatever it is, you should attend to it at once. You cannot afford to waste time putting it off. Nature may give you that more emphatic warning of the presence of tuberculosis, a hemorrhage of the lungs. If so, don't be scared unduly. It is a danger signal, and if you heed it, you may be safe.

There are other danger signals, some which you can see and some which only a trained physician can detect. Your safety lies in getting medical attention as early as possible. Tuberculosis can be cured if it is discovered in time. The time to discover it is when the first symptoms show themselves. Don't take chances with Death. You'll lose every time.

Go to a good doctor, if you notice any of these danger signals, and insist that he examine you stripped to the waist. If you can't afford a doctor, go to a free clinic and be examined. It may cost a few dollars to be examined, but it may save you hundreds of dollars, untold suffering, and possibly your life and that of your wife and family.

"SAFETY FIRST" is a motto that applies to tuberculosis, especially when it is first showing itself.

[NOTE—This is the Fourth of a Series of Five Articles Prepared by The National Association for the Study and Prevention of Tuberculosis, New York City.]

OUR PUBLIC FORUM

VII.—Hon. Elihu Root

On Woman's Sphere

The question of Woman Suffrage is an issue before the American people. Twelve states have adopted it, four more states vote upon it this fall and it is strongly urged that it become a platform demand of the national political parties. It is therefore the privilege and the duty of every voter to study carefully this subject. Hon. Elihu Root, in discussing this question before the Constitutional Convention of New York, recently said in part:

"I am opposed to the granting of suffrage to women, because I believe that it would be a loss to women, to all women and to every woman; and because I believe it would be an injury to the State, and to every man and every woman in the State. It would be useless to argue this if the right of suffrage were a natural right. If it were a natural right, then women should have it though the heavens fall. But if there be any one thing settled in the long discussion of this subject, it is that suffrage is not a natural right, but is simply a means of government, and the sole question to be discussed is whether government by the suffrage of men and women will be better government than by the suffrage of men alone.

Into my judgment, sir, there enters no element of the inferiority of woman. It is not that woman is inferior to man, but it is that woman is different from man; that in the distribution of powers, of capacities, of qualities, our Maker has created man adapted to the performance of certain functions in the economy of nature and society, and woman adapted to the performance of other functions.

Woman rules today by the sweet and noble influences of her character. Put woman into the arena of conflict and she abandons these great weapons which control the world, and she takes into her hands, feeble and nerveless for strife, weapons with which she is unfamiliar and which she is unable to wield. Woman in strife becomes hard, harsh, unlovable, repulsive; as far removed from that gentle creature to whom we all owe allegiance and to whom we confess submission, as the heaven is removed from the earth.

The whole science of government is the science of protecting life and liberty and the pursuit of happiness. In the divine distribution of powers, the duty and the right of protection rests with the male. It is so throughout nature. It is so with men, and I, for one, will never consent to part with the divine right of protecting my wife, my daughter, the women whom I love, and the women whom I respect, exercising the birthright of man, and place that high duty in the weak and nerveless hands of those designed by God to be protected rather than to engage in the stern warfare of government. In my judgment, this whole movement arises from a false conception of the duty and of the right of both men and women.

The time will never come when the line of demarcation between the functions of the two sexes will be broken down. I believe it to be false philosophy, I believe that it is an attempt to turn backward upon the line of social development, and that if the step ever be taken, we go centuries backward on the march towards a higher, a nobler and a purer civilization, which must be found not in the confusion, but in the higher differentiation of the sexes."

SUFFRAGISTS' BIG
FIGHT FOR BALLOT

Washing on Demonstration to Follow One a Fair

CONGRESS IS BEING POLLED

At Least 5,000 Suffragists, Men and Women, to Gather in National Capital For December Meeting—Woman Suffrage Workers Plan Busy Campaign in Their Native States.

Washington.—This month the women voters of the United States planned to meet at the Panama-Pacific exposition in San Francisco and go on record as favoring the Susan B. Anthony amendment to remove from the ballot the qualification of sex.

Three months later, during the first week of December, the members of the Congressional Union and their supporters will rally in Washington and make a great demonstration before congress.

More than 5,000 women will take part in the San Francisco convention.

Photo by American Press Association.
MRS. O. H. P. BELMONT.

At least 5,000 suffragists, men and women, will gather in the national capital for the December meeting.

In the various states woman suffrage workers are calling on their representatives in congress to assist them by word of mouth and by votes next winter.

"We are determined to win from a reluctant congress that which will establish for all time to come our rights as citizens of the United States," said Miss Lucy Burns, vice president of the congressional union. "We have listed more than half of the members of the present congress, and by a list index can tell just where they stand. Before congress meets we will complete our poll and will be able to separate the sheep from the goats or the wolves."

Miss Burns was asked if the Union would send any more deputations to see the president and try to get him to support their cause.

"We have not mapped out our plan as to the president," said Miss Burns. "but we will wait until he declares his position on suffrage in New Jersey before the October election there. It was announced at the White House some days ago that the president would make public his views in his own state. The congressional union's attitude toward the president is one of watchful waiting."

This convention will consider how the political power of women who are already voters may be used to help the passage of the suffrage amendment in the next congress. There are already nearly 4,000,000 women voters. All the twelve suffrage states will send voting delegates. The states in which women are still disfranchised will send representatives.

At this convention New York will be strongly represented. Mrs. O. H. P. Belmont, chairman of the women voters' convention, is expected to be present. Mrs. Belmont is deeply interested in the plan for the Congressional Union to organize the women voters of the west in support of the federal suffrage amendment.

"It is this part of the policy of the Congressional Union," said Mrs. Belmont, "which has my heartiest support."

Mrs. Belmont has already devoted much time to overseeing the details of the convention. She has been assisted by a committee consisting of Mrs. William Kent of California, Mrs. S. B. M. Young of Montana, Dr. Cora Smith King of Washington, Mrs. George Fowler of Colorado, Mrs. Charlotte A. Whitney of California, Mrs. Preston Satterwhite of New York, Mrs. M. H. DeYoung of California, Miss Margaret Roberts of Idaho, Mrs. Frederick G. Searborn of California, Mrs. Lucius Cathbert of Colorado, Mrs. Phoebe A. FLY CAUSES \$50,000,000 LOSS

Hessian Pest Greatly Damages Wheat. Agricultural College Wages Experimental Campaign.

Missouri farmers have suffered a five million dollar decrease in the 1915 wheat yield, according to careful crop reports and estimates made by W. L. Nelson, assistant secretary of the Missouri State Board of Agriculture. Other authorities estimate the loss at twice this amount, but all agree that immediate steps must be taken to prevent an even greater loss next year.

A Hessian fly extermination campaign should now be pushed vigorously for the purpose of saving next year's wheat crop from the ravages of the pest. The fly should be attacked in the old wheat stubble and the volunteer wheat should be buried deeply beneath the soil by plowing and harrowing.

Every county in the state, infested with the Hessian fly, should be organized for a complete destruction of the pest. Every farm bureau, farmers' union, grange, anti-bore thief association, and local organization, as well as all county officers and township officers, should lend their support and work for the movement to make it effective. The field work to be done in this co-operative campaign has been outlined by the College of Agriculture as follows:

Plow wheat stubble just as deeply as possible and harrow thoroughly. This will bury the insects in the dormant flaxseed stage and cover them with such a fine surface mulch that row of them will escape.

Destroy all volunteer wheat in order that the flies which do escape may be starved to death before the regular fall sown crop is available. The flies deposit their eggs in the grooves of the leaves of the wheat plant, but rarely use any other small grain in this way. Volunteer wheat left undestroyed may be as dangerous to other wheat as a case of smallpox, not properly quarantined, is to the remainder of the community.

Do not sow until the flies are dead. Delay as long as possible, without danger of reducing the yield, by preventing the wheat from being well established in the soil before winter. This lengthens the period during which

the flies are being starved. The safe date in northern Missouri is October 1, in the central part of the state October 5, and in the southern third October 15. Sow as far as possible from fields which have been in wheat in 1915, in order that it may be as difficult as possible for flies to reach the new field.

Use oats or rye for fall pasture, instead of wheat. The oats will not feed the fly and enable it to live until the fall sown wheat is available and the fly attacks rye very slightly.

Good seed, fertile soil and a properly prepared seed bed aid in securing a strong, vigorous, healthy plant which will be better able to resist the attacks of the Hessian fly.

Every farmer in the community must adopt these measures. If the best results are to be secured. One man who sows early and allows volunteer wheat to remain undestroyed, may establish an infestation from which enough flies will spread by wing and wind, to destroy all his neighbors' wheat crops within half a mile. When they have destroyed his early sown wheat, they will seek that which was sown later, and is still green and fresh.

Most of these control measures should be a part of all good Missouri wheat raising, even if the Hessian fly did not make them more desirable. They add little or nothing to the expense of growing the crop but greatly increase the yield.

The failure of farmers to co-operate and the unusually warm October weather in 1914 made the eradication of the fly especially difficult last fall. Only once was the freezing point reached before November 14, so the fly had the same opportunity to work in November which it ordinarily has during October, and the effectiveness of the measures taken was greatly reduced.

Belckow 15, Graham 5.

Belckow defeated Graham Sunday in a well played baseball game, 15 to 5. The feature of the game was the hitting of the Belckow team and the work of the Belckow battery. Dougan, pitching for Belckow, struck out seventeen men. Batteries—Graham, Anderson Noblet and Noblet; Belckow, Dougan and Messick.

DEFER CLEARMONT TOURNEY

Maitland, Pickering, Hopkins and the Home Team Clash in Six-Game Contest for \$350.

The six-game baseball tournament to have begun at Clearmont this afternoon with the teams of Hopkins, Pickering, Maitland and Clearmont contesting for the pick of the four prizes aggregating \$350, has been postponed on account of rain. The prizes are: First, \$125; second, \$100; third, \$75; fourth, \$50.

Richardson and Wiley, battery for the Maryville Federals contracted with the management of the Pickering team last night to play with that team during the tournament.

Burlington Junction and Clarinda, Ia., were previously scheduled to engage in the contest but they withdrew to the Maitland and Pickering teams.

One of the four teams which is striving hard to come out on top or nearly on top in the tournament, is the Pickering nine. Besides having Wiley and Richardson of the local team, the Pickering team will also contain the four Carmichaels, consisting of Charles, D., Marvin and Rube; Richard and Dennis Collins, Howard Leach and Harvey Sadler and Pellings, an "imported" third baseman.

The Maitland team will contain "Swede" Bundy as pitcher; Caywood, catcher; Lewis, Phillips, E. Bundy, Walker, Pruitt, Roberts and F. Lewis as homeguards besides several "imports." The Clearmont and Hopkins teams will line up nearly the same as in the tournament here and the one at Hopkins.

Returns to Hopkins.

Miss Edna Robb of Hopkins, who has been spending a few days visiting Mrs. E. B. Sheldon, left today for her home. Miss Robb leaves soon for Jacksonville, Ill., where she will attend college.

SHAVED BY SWISS ON BORDER

Austrian Soldiers Operated on Through Barbed Wire Fences.

Innsbruck, Austria, Sept. 7.—The Swiss-Austrian frontier is carefully marked off and closed by barbed wire fences, but that does not prevent fairly free intercourse between the Swiss and the Austrian soldiers.

Soldiers of both countries are grouped along the Engadine border and in the Swiss ranks is a barber, the only one of his profession on either side. A recent visitor to this front who desired to have a shave found it was obtainable by the simple expedient of sitting in a chair on the Austrian side and allowing the Swiss soldier to extend his arms through the wire meshes.

The shave was not the equal of one in a regular barber shop, a bit ragged and rough in spots, but it was better than none and was accomplished without any breach of neutrality. Austrian officers, it is asserted, resort almost daily to the odd expedient.

STOLE HIDE FROM COW.

Thief Took Advantage of Auto's Collision With the Animal.

Baraboo, Wis.—Recently a cow belonging to Mr. and Mrs. Isaac Cohn was struck by an automobile owned by Edward Kowalko of North Freedom. The cow was tethered in the road for a pasture, and the driver of the car claims he tried to avert an accident, but could not.

The leg of the cow was broken, and the animal had to be killed. Action was begun in Justice Adolph Andros' court on the ground the machine was being driven too fast, and later a change of venue was taken to Justice H. L. Haisted's court, where the case was dismissed, as the car was not going twenty-five miles an hour. Besides, cows should not pasture in the highway.

The hide was removed from the animal, and later the sheriff was notified that this had been stolen. The thief has not been apprehended.

TO SAFEGUARD

\$5,000,000,000

Destruction of Records by Big Chicago Fire Recalled.

New York.—If fire should destroy the hall of records the city would lose its files of deeds and mortgages, upon which rest the title of Manhattan's \$5,000,000,000 of realty.

Register Hopper recommended in presenting his budget estimates for 1916 to the board of estimate that the duplicate abstract records which he has completed be housed in a fireproof building away from the city. The original plant would be retained in the office for title searching purposes. This method of duplicate plants in separate localities is followed by the large title and insurance companies, but the city has neglected to protect its records.

On record in the register's office are 1,000,915 deeds and over 1,000,000 mortgages. The books or files number over 8,000.

The destruction by fire of the Equitable building and of the contents of a part of the capitol at Albany proved that merely depositing records in a fireproof building does not safeguard against partial or total destruction by fire. The great fire in Chicago destroyed the original records, but the damage was mitigated to a degree by the fact that abstracts made by a private company were saved. It placed owners largely at the mercy of the title company, which took huge profits from selling the abstract information. Fire and earthquake at San Francisco and fire at Jacksonville, Fla., illustrated further the great loss resulting from a destruction of title records.

"The establishment of the Torrens system," says the register, "in the way it has been successfully and universally applied in Australia and many other countries, would do away completely with the need of preserving old records except for their historical interest."

TO HONOR DANIEL BOONE.

D. A. R. Will Unveil Boulder Next Month.

Montgomery City, Mo.—After nearly 100 years a monument is to be erected over the burial place of Daniel Boone, near Martinsville, Warren county, through the efforts of the Daughters of the American Revolution. It is to be made of a large red granite boulder found in Warren county, which Boone selected as his last resting place.

It is planned to dedicate the marker Oct. 29 at the close of a conference of the Missouri Daughters which is to be held in St. Louis.

Student a Hero.

Franklin, Ind.—Oscar Bogard of Lyons, who is attending the summer course at Franklin college, has become a hero in the opinion of his friends in rescuing a horse from death under a train. The horse broke loose from a hitchrack in front of the college campus and ran along the railroad tracks. The buggy was demolished and the horse became entangled in the harness and fell on the tracks. A train was approaching at full speed when Bogard with almost superhuman strength dragged the horse from the tracks only a second before the engine whizzed by.

SOCIETY and CLUBLAND

By KATE SCHENCK
PHONES—OFFICE 42 HOME 683

Society Begins Work.

The Woman's Missionary Society of the First Baptist church introduced for this year a change of meeting place, making all gatherings to be held at the church instead of at the homes of the members. This was done because of its large membership and the central position of the church being a matter of greater convenience. The organization begins this fall its twenty-eighth year's work. The meetings are held on the first Friday of each month, each alternate session being a tea given in connection with the regular program. The various phases of foreign and home missions are the subjects studied with the exception of the February meeting at which the life and works of Fanny Crosby, the song writer is the topic. The annual business meeting and luncheon, which includes the year's work, will be held on the church lawn on August 4, next. The officers are Mrs. Alexander Fraser president; Mrs. W. A. Burris, Mrs. Clark Andrews and Mrs. L. P. Jones, first, second and third vice presidents; Mrs. W. M. Westbrook, secretary; Mrs. G. W. Hempstead, treasurer; Mrs. William Everhart, collector; Mrs. L. W. Hale, pianist; Mrs. H. L. Raines, chorister; Mrs. Omer Catterson, librarian; and Mrs. W. A. Bailey, flower committee.

Gibbons-Evalson.

I. W. Evalson of St. Joseph and Mrs. Sadie A. Gibbons of Independence, Kan., were married yesterday afternoon at the home of Mrs. A. O. Spickerman. Mr. and Mrs. Evalson left on the afternoon Burlington train yesterday for St. Joseph where they will make their home.

Wilson Dinner Party.

Mr. and Mrs. John Wilson of Graham, were the hosts of a dinner party given Sunday noon at their home at which they entertained Mr. and Mrs. R. B. Gex, Mr. and Mrs. Robert Gex and Mr. and Mrs. William Montjoy and sons, all living near Graham, Mr. and Mrs. L. G. Crossan and daughter, Lora May, of this city and Mr. and Mrs. Halbert Catterson and children, Miriam, Halbert, Jr., and Lewis Edward, living north of Maryville.

Entertains Bridge Club.

Miss Clara Sturm entertained the members of the Tuesday Afternoon auction bridge club yesterday with a bridge luncheon at the Sturm home on South Main street. Mrs. B. M. Chandler was a complimentary guest of the club. The prize for the high score was won by Mrs. D. J. Thomas. The guests were Mrs. M. L. Beattie, Mrs. George B. Baker, Mrs. Will Wallis, Jr., Mrs. Fayette Bellows, Mrs. Ralph Ever sole, Mrs. D. J. Thomas, Mrs. B. M. Chandler and Miss May Orear.

Lawrence Keeler Host.

Lawrence Keeler entertained a crowd of friends Monday night with a movie party at the Empire theatre followed by a luncheon at the Keeler home on South Main street. The gathering was a farewell one before the departure of Mr. Keeler for St. Mary's Kan., where Mr. Keeler enters his junior year at St. Mary's college. Those in the party were Miss Mary Lewis, Miss Mary Sewell, Miss Vella Booth, Miss Brownie Helpley, Miss Vijuene Colden, Joe Farmer, Martin Lewis, Jr., Verne Pickens, Ernest Moore and Mr. Keeler.

HOLDS RELIGIOUS CAMPAIGN.

Mike Monday Conducts Independent Revival This Week.—Crowd Increases.

Mike Monday, "liberal evangelist," holding a revival at the Star theatre, announced last night that he is now ready for business in Maryville. He has stretched across the front of the building a twenty-two foot sign and has filled the lobby with placards. He has also secured the services of an orchestra, consisting of a violin, cornet and piano. The attendance last night increased slightly. He will speak tonight on the subject, "Heaven I Have Met." He spoke last night on "Sauerkraut and Marshmallows."

Carefully Treat Children's Colds

Neglect of children's colds often lays the foundation of serious lung trouble. On the other hand, it is harmful to continually dose delicate little stomachs with internal medicines or to keep the children always indoors.

Plenty of fresh air in the bedroom and a good application of Vicks' "Vapo-Rub" Salve over the throat and chest at the first sign of trouble, will keep the little chaps free from colds without injuring their digestions. 25c, 50c, or \$1.00.

MRS. J. E. MELVIN WINS PRIZE.

Gets First on Butter at County Fair.—

Mrs. William Doffing, Second In giving the domestic science awards at the county fair last week the prizes for the best dairy butter were omitted from the list.

The first prize for the best pound of butter was won by Mrs. J. E. Melvin of West Lincoln street and the second by Mrs. William Doffing of East First. Twelve entries were made in this department.

NODAWAY BONDS BY 19 VOTES.

County Court Finds Majority, Smaller Than Some Reported.—Advertise for Bids.

The Nodaway township voters gave the \$35,000 road bond proposition a majority of nineteen votes August 24, instead of a 57 majority as other newspapers over Nodaway county reported, according to an official canvass made by the county court today.

The county court has arranged to advertise for bids for the sale of the bonds as soon as possible, so that the money can be secured by the township board in time to do some improvement work this year.

HOME COMING DATE CHANGED.

Fall Festival of Monroe Township Will Be Held in October.

The Skidmore Home Coming Day, which had been set for September 17, has been postponed until the early part of October.

Definite arrangements for the event have not yet been made but it is planned to have a general harvest home festival for Monroe township and a number of attractions will be secured.

County Farm Has Big Apples.

Two large apples of unknown variety, grown on the county farm, west of Maryville, were submitted to the county court today as proof of the care taken of the county orchard there under W. L. Job superintendent. One measures thirteen and one-half inches in circumference and the other is just a foot around.

To Teach at Ottawa.

Miss Neva Airy will leave tomorrow for Ottawa, Kansas, where she teaches this year in the primary department of the public schools. Miss Airy will go by the way of Kansas City and stop there for a short visit with Mr. and Mrs. Frank Flynn.

Read Democrat-Forum want ads.

RAINED INCH IN SHORT TIME.

Precipitation At Noon Today Fell in Torrents — Flooded Streets and Walks.

A rain which fell almost in a torrent at noon today, flooded the streets and sidewalks for a short time this afternoon, quickly caused a rise in smaller streams and resulted in the abolition of automobile traffic on the country roads for today.

The rain really began early this morning, when a slight rain fell at 4 o'clock, but the skies cleared until about 11 o'clock this morning when a real rain began, coming hardest about 12:30 o'clock. The precipitation at 1:30 o'clock this afternoon was 1.03 inches, according to J. R. Brink, local weather recorder.

MERCHANT BANKRUPT.

Harry W. McClain, Hardware Dealer, Lists Assets at \$1,500 Less Than Debts.

Harry W. McClain, a hardware merchant at Clearmont, filed a voluntary petition in bankruptcy in the federal court at St. Joseph yesterday. His debts are listed at \$5,000 and assets at \$3,500.

Lester-Lindsay Shows to Come.

The Lester-Lindsay Theater Company is scheduled to arrive in Maryville next Monday for a week's engagement here. The show grounds will be on East Third street, near Vine. This show firm is fairly well known in Maryville.

Miss Corwin Home.

Miss May Corwin returned Monday night from a visit of several weeks at Loveland and Estes Park, Colo. Miss Corwin will leave soon for New York City, where she will attend school this coming year.

Market Livestock.

Collins Brothers of Pickering, and William Howden of Skidmore, marketed livestock in St. Joseph yesterday.

Goes to Business College.

Forrest Gooden, son of Mr. and Mrs. Cooper Gooden, will attend the Gem City Business college at Quincy, Ill., beginning this week, instead of a business school at Grand Island, Nebr., as was at first planned.

Mrs. C. A. Bone Returns.

Mrs. C. A. Bone returned last night from a visit of several weeks at Montezuma and Des Moines, Ia.

NEW PASTOR HERE FRIDAY.

The Rev. W. M. Case Will Preach First Sermon at Presbyterian Church Next Sunday.

The Rev. William Moll Case, the newly chosen pastor of the First Presbyterian church, will arrive in the city Friday noon from Caldwell, Idaho, and Sunday will conduct his first church service.

Mr. Case preached his farewell sermon at the Idaho church last Sunday and the occasion was made a union service of all the churches in the city.

Mrs. Case will accompany her husband to Maryville and after a few days stay here will go to Iowa to visit relatives before taking up a permanent residence here.

INJURED CHILD AT HOSPITAL.

Daughter of Mr. and Mrs. Roy Martin Undergoes Operation This Morning.

Katherine Martin, the young daughter of Mr. and Mrs. Roy Martin, was taken to St. Francis hospital yesterday and this morning she underwent an operation for an affection of her ankle.

While playing several weeks ago the little girl sprained her ankle and the injury resulted in blood poisoning. Her case has been quite serious for the past two weeks.

Are Roofing Wabash Depot.

The Wabash freight house is being re-roofed this week with a new process roofing.

Daughter at Brown Home.

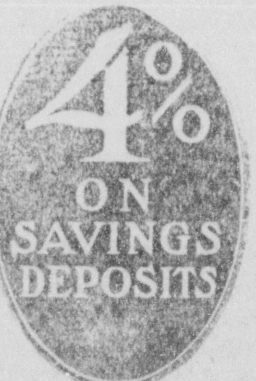

Mr. and Mrs. Walter C. Brown, living six miles south of the city, announce the birth of their daughter this morning.

Guess Work Is DANGEROUS In Fitting Glasses

The old way of fitting glasses by guessing at the kind needed was often more harmful than going without them. NO GUESS WORK NOW. FEDERALS TO PLAY CRESTON

Maryville Team, Slightly Changed, to Give 2 Exhibition Games at Lenox This Week.

The Maryville Federal team was to leave today for Lenox, Ia., where the team was to meet Creston for a game this afternoon and another tomorrow, in exhibition games at the Lenox picnic and home coming. The Federals will be captained during this trip by George Palfreyman. Rain, however, has caused a postponement of the games.

The team will be composed of the following men, according to announcement made last night by Captain Palfreyman: Pusey and Wakeman, pitchers; Summa of Stanberry, catcher; Tilson, 1b; Scott, 2b; Palfreyman, ss; Walker, Stanberry, 3b; Morse, rf; Besinger of Stanberry, cf.

Willey and Richardson were scheduled to go as battery for Maryville but on account of the Clearmont tournament, in which they will engage, a substitute pitcher and catcher were secured. Pusey comes from the St. Joseph Western League team.

TRAIN VICTIM RECOVERS.

Jesse Smith, Arkoe, Recovers.—Save Right Leg But Amputate Other.

Jesse Smith of Arkoe, who had his left leg cut off by a Burlington train August 30, is recovering slowly at St. Francis hospital here, where he was taken after the accident. He is now able to sit up.

His left leg had to be amputated where nearly severed, but the physicians believe they can save the right member.

ROBINSON PAINTINGS SHOWN.

Are Shown at San Francisco Exposition.—Artist Known Here.

One of the largest displays of the work of American artists made at the Panama-Pacific exposition, is that of the paintings of Theodore Robinson, a brother of the late H. E. Robinson of Maryville.

The work of the artist who died a number of years ago in Europe, which was his home in his later years, is judged to be among the finest of American painters and the exhibit includes many of his best. It is hung by a New York salon for display during the exposition.

The artist visited in Maryville a number of times during his brother's life time and was known to many in the city.

A number of his paintings were in the H. E. Robinson home, gifts from the artist to his brother and family.

BOOSTERS WON 8-2

MAITLAND SUFFERS SECOND DEFEAT AT HANDS OF MARYVILLE.

END SEASON NEXT WEEK

Local Baseball Team May Play Pickering Tuesday as Finale.—Yes, today's Contest Slow and Poor.

The Maryville Boosters defeated the Maitland baseball team by the score of 8 to 2 at the Normal grounds yesterday afternoon for the second time this season. The game was witnessed by a small and lifeless crowd, while the game was loosely and slowly played by both teams.

The Boosters are scheduled to play one more game this season, making thirteen games in all. The final contest will probably be with the Pickering team there next Tuesday, according to Walter Wray, manager.

The Maitland team came with the intention yesterday of getting revenge for the 5 to 1 defeat administered to it several months ago by the Boosters. The fact is the Maitland bunch had won eleven out of the last dozen games it had played.

The visitors earned neither score they got, while the Boosters should have had several more. The game was umpired by Emmett Scott.

Two double plays were secured by the Boosters, one in the seventh inning when Tilson pegged to Palfreyman for a put out at second, and Palfreyman returned the ball to first to throw out "Swede" Bundy. The other was in the next inning when Palfreyman threw to Scott to secure a put out at second and Scott threw to Tilson to throw out Lewis there.

Wakeman "fanned" ten Maitland batters to eight struck out by Bundy. Bundy was wild though and walked four men, besides allowing local players several base advances on wild pitches.

The Boosters lined up as follows: Finch, 3b; Palfreyman, ss; Moore, rf; Richardson, c; Mayes and W. Adams, cf; Scott, 2b; Tilson, 1b; Wray, lf; Wakeman, p.

The Maitland team lined up as follows: Caywood, c; Lewis, ss; Phillips 1b; Bundy, cf; Walker, 3b; Pruitt, rf; Roberts, 2b; P. Lewis, lf; Swede Bundy, p.

The score: R.H.E. Maitland 0 0 0 0 1 0 0 1—2 10 8 Boosters 2 2 0 1 2 0 1 2—8 14 7

LECTURER FAILS TO ARRIVE.

Demonstration of Miss Bab Bell at Pickering Will Probably be Held Later.

Miss Bab Bell of the home economics department of the Missouri State University, who was to give a demonstration before the conference of women's clubs at Pickering today and tomorrow failed to reach there today for the meeting.

No word has been received this afternoon from Miss Bell, but it is probable that the meeting can be arranged at a later time.

ATTENDS W. C. T. U. MEET.

Mrs. R. L. Finch Represents Local Union at Convention at Burlington Junction.

Mrs. Robert Lyle Finch left this morning for Burlington Junction where she represents the local Women's Christian Temperance Union at a district meeting held at the United Presbyterian church of Burlington Junction today.

Delegates from all the unions in the county and a number of other workers attended the meeting. The principal address was given this afternoon by Mrs. Lizzie O. Middleton of Kansas City, an officer of the state organization.

Mrs. Middleton also will speak tonight.

HOLT MAY PAY FOR BRIDGE.

Will Not Use the \$480 for Ditch.—Defers Action on Other Proposition.

The Holt county court will probably pay the \$480, as its share in the erection of a tri-county bridge over the Nodaway river, south of Graham, according to a decision of the county court at Oregon yesterday, after a conference with members of the Nodaway county court, Prosecuting Attorney W. G. Sawyers and John G. Thornhill.

The Holt court first tried to evade the payment direct to the Nodaway county court, with a proposition to instead use the money for building a drainage ditch along the Nodaway river and also that the pro rata population of Holt county did not permit it to pay as high as \$480. The Holt officials yesterday acquiesced relative to the drainage ditch but have yet to decide on the pro rata basis.

The bridge was built last winter under the stipulation that Andrew, Holt and Nodaway counties would pay equally for the improvement.

LIVE STOCK

RAISING HORSES FOR PROFIT

Every Available Sound Mare Should Be Bred to Meet the Demand Caused by European War.

Ever since the first days of hieoies some have thought that the breeding of horses would become unprofitable. Meanwhile the horse has kept its place among domestic animals and we now have more than ever before. With the European war on us and so many horses being killed in battle the near future probably will see a greater demand for horses than at any time in the last century.

It is not advisable to breed a mare having serious defects, but every sound mare available should be bred to a stallion to produce stock to supply the coming demand. Don't think you are economizing to breed to some

Excellent Farm Type.

defective or disreputable stallion rather than pay a little higher price for the service of a good one.

Two years ago a farmer who had two mares of equal value bred one to a low-grade horse, the other to a good one. The colts had the same treatment in every respect. At weaning time he refused \$100 for the better colt and could not find a buyer at \$50 for the other. This demonstrates the benefit of breeding from the best. It takes no more to raise a good animal than a scrub, and the selling price is generally twice as much or more, and a buyer is much easier found.

GOOD MATERIAL FOR GROWTH

Alfalfa, Either in Green State or as Hay, Is One of the Best Feeds for the Young Pigs.

The pig which does not grow, but merely gets fat, is likely to die of "thumps." Corn makes fat. The small grains are richer in the things that make the bone and muscle needed if the pig is to grow. Two parts of shorts to one of corn is a growth ration rather than a fat ration.

Skim milk furnishes a good material for growth if fed with a little corn. When the shoats reach the weights of about 75 pounds, the feed may be made of one part of tankage to ten parts of corn, or one of the small grains. Small grains should be ground or crushed.

Alfalfa, either in the green state or as hay, is one of the best feeds for the young pig. It feeds the bones and muscles, but should have corn to render it complete. These ideas have been found correct by the Nebraska station. Those who have not the alfalfa may grow rape as a growth crop. It is equal to alfalfa in materials for bone and muscle.

Pigs Need Protein.

Growing pigs need more protein than they can get from corn and pasture. Skim milk is fine for them and so is meat meal or tankage. In the writer's experience there is no better thing for growing pigs on pasture, that are getting some corn, than a slop made of shorts with a little tankage added. It sure helps a pig to make a hog of himself in quick time.

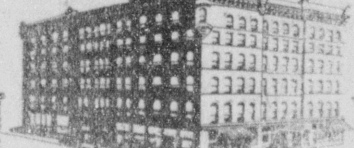

Keep the Colt Sleek.

A few minutes every day with brush and comb would keep the colt sleek. It is when we let this work slip by that we have to turn the little fellow out and leave him to get rid of dust and dirt.

Breed to Pure-Bred Stock.

If everybody insisted that they must breed their mares to pure-bred stock, it would not be long before scrub stallions would be scarcer than hen's teeth.

LACLEDE A HOTEL

Most Famous St. Louis Hotel

HORSES NEVER SO MUCH IN DEMAND AS NOW.

Missouri has never in all its history been called on to supply such a quantity of horses as in the past few months. This means that with all the plugs and inferior horses sold for "cannon fodder" that the best is left and that from these there will spring the best breed of horses Missouri has ever seen. At the state fair, September 25 to October 2, there will be shown the best in horses that Missouri affords.

Ask for CHICHESTER'S DIAMOND BRAND PILLS, for 25 years known as Best, Safest, Always Reliable. SOLD BY DRUGGISTS EVERYWHERE.

GREAT HARVEST IN RUSSIA.

Wheat Yield Is Better Than Five Year Average.

London.—The Daily Mail's correspondent at Petrograd quotes M. Krivoshein, minister of agriculture, as saying that the Russian harvest is not only better than in 1914, but greatly above the average for the five years preceding. The yield is estimated at 2,000,000,000 bushels, of which 571,000,000 bushels are wheat. During the five years preceding 1914 the average wheat yield was 478,000,000 bushels. The only districts where the harvest was bad were the Vilna and Grodno regions, which are now largely occupied by the Germans. The difficulty of finding enough harvest workers has been overcome and there would be no difficulty in exporting the surplus through the Black sea if the Dardanelles were opened.

The Siberian harvest was below the average, but this fact is negligible when the abundance of the crops in eastern and southern Russia is remembered.

JUST A "DOG'S LIFE."

Kansas City Man Goes Into Particulars of Wife's Treatment.

Kansas City, Mo.—"A man is about the same as a dog," James Henson said his wife told him, and he quotes the phrase in his divorce petition. Then, to show he lived a "dog's life" from the time he married his wife, Mrs. Etha Henson, in 1901, he enumerates the following indignities: She was cross and irritable. She gossiped about him. She would make him leave the table before the meal was finished. She would not mend his clothes. She objected to washing his shirts. She crumpled and mangled. She had a bad disposition. She ran up bills on him.

AMERICAN DIGS UP EGYPTIAN TEMPLE

One of the Glories of Memphis Is Excavated.

Philadelphia.—The discovery of a great temple at Memphis, Egypt, belonging approximately to the period of Rameses II, is announced by the University museum as a result of the spring and summer explorations of Eckley B. Cox, Jr., of the Egyptian expedition under the leadership of Dr. Fisher, curator of the museum's Egyptian section. The find is considered of first importance and it is hoped will prove to be the beginning of further developments in the uncovering of the history of Memphis, which was one of the great cities of the world, probably the greatest in the time of Rameses II, more than 3,000 years ago, which is known to have been of great importance 5,000 years ago and probably has a history running thousands of years behind that era.

The temple was sited over with mud from the Nile and covered with sand blown from the desert, so that nothing remained of the glories which were so prominent in the days of Herodotus and which lasted until within a century or two of the Christian era.

The discovery of the great temple to students of history is highly valuable, bearing out the glowing chronicles of the glory of Egypt by Herodotus. It forms another refutation of recent historians who have accused him of inserting myths in his writings.

When the digging began the capitals of two columns of the great palace were discovered. After a hundred expert diggers had spent three months in careful excavation a great hall of columns was unearthed, and the excavations were then carried down to the original soil. The temple must originally have been one of the glories of Egypt. In spite of the work of time, of sieges and other destructions, enough survives to show that it was a magnificent place. This temple in all its gorgeousness was described by Herodotus. A large inscription indicates that it may possibly be the temple of Set II, although at first it was supposed to have been erected by Menephtah, son of Rameses II.

SHE HAS "HYPNOTIC EYE."

Lindsay (Cal.) Man Complains Against Wife.

Lindsay, Cal.—Alleging that his wife, Mrs. Mary Perry, has a "hypnotic eye" and that for the past year she has exercised a malign influence over him, Wesley E. Perry, a rancher, swore to a complaint for the arrest of Mrs. Perry and asked that she be detained at the county jail until an examination can be made into her mental condition. Mrs. Perry made a statement to the officers following her arrest, in which she declared her husband is "half insane" and that he, instead, should be locked up and examined by the county alienists.

New Automobile Fuel.

London.—Attention has been called in England to another new motor fuel called "natalite," for which excellent results and low price are claimed. It is said to be composed mostly of alcohol, and the mixture contains a small quantity of alkali for the purpose of neutralizing the acidity of the products of combustion of the alcohol, which otherwise would cause corrosion of the valves and cylinders.
